What Residents are Saying

AE.

"I had such a great experience with the maintenance team! My refrigerator stopped working, so I contacted the leasing office and the very same day, Mario and Arturo brought me a brand-new refrigerator and installed it right away.

They were both extremely kind, friendly, professional, and helpful. Everything was handled so smoothly and efficiently. I really appreciate how great Mario and Arturo were. Amazing service — thank you so much!!"

Community Update

Completions and Hydration!

Beat The Heat

Great news for our Mira community: pool maintenance and fire alarm inspections are both officially completed, and the pool is open once again, just in time for the major heatwave hitting Los Angeles! To help keep your apartment cool, close your blinds during peak sun hours to block direct sunlight, limit heat-generating appliances like ovens during the hottest parts of the day, and set your thermostat to a steady, efficient temperature (around 78°F) to prevent the A/C system from overworking. Most importantly, don't forget to stay hydrated—take advantage of our

Flo water stations to refill your bottles and stay cool!
